BIM QUANTIFIER PRO - INSTALLATION GUIDE

Version 1.0.0 | 2026

🏗️ BIM Quantifier Pro
Professional BIM Quantity Takeoff & Cost Estimation Tool
Developer: Mohamad Javad Ghahremani
Email: mj.qahremani@gmail.com

BEFORE YOU BEGIN

📋 System Requirements:
✅ Supported Revit Versions:
• Revit 2020
• Revit 2021
• Revit 2022
• Revit 2023
• Revit 2024
• Revit 2025
• Revit 2026
• Revit 2027
✅ Operating System:
• Windows 7 (64-bit)
• Windows 10 (64-bit)
• Windows 11 (64-bit)
✅ Hardware:
• RAM: 8 GB minimum (16 GB recommended)
• Disk Space: 50 MB
• Processor: Intel i5 or equivalent
✅ Internet:
• NOT required for plugin operation
• Only needed for initial license email
⚠️ IMPORTANT:
• Revit LT is NOT supported (add-ins not available in LT)
• Administrator privileges required for installation

STEP 1: PREPARATION

BEFORE INSTALLATION:
1. ☐ Save All Your Work
• Save all open Revit projects
• Sync with Central if using Worksharing
2. ☐ Close Revit Completely
• Close all Revit windows
• Check Task Manager to ensure no Revit processes are running
• Close Revit Launcher if open
3. ☐ Download Installation File
• Locate the file: BIMQuantifierPro_Setup_v1.0.0.exe
• Recommended: Move to Desktop for easy access

STEP 2: INSTALLATION

INSTALLATION STEPS:

1. Run as Administrator
   • Right-click on BIMQuantifierPro_Setup_v1.0.0.exe
   • Select "Run as administrator"
   • Click "Yes" if Windows asks for permission
2. Welcome Screen
   • Read the welcome message
   • Click "Next"
3. License Agreement
   • Read the End User License Agreement
   • Check "I accept the agreement"
   • Click "Next"
4. Installation Location
   • Default: C:\ProgramData\BIMQuantifierPro
   • Click "Next" (recommended: keep default)
5. Ready to Install
   • Review installation settings
   • Click "Install"
6. Installation Progress
   • Wait for installation to complete (1-2 minutes)
   • Installation will automatically detect your Revit version(s)
   • Plugin files will be copied to appropriate locations
7. Completion
   • Success message will display
   • Shows which Revit versions were configured
   • Click "Finish"

STEP 3: FIRST LAUNCH

LAUNCHING THE PLUGIN:

1. Open Revit
   • Launch your preferred Revit version (2020-2027)
   • Wait for Revit to load completely
2. Find the Plugin Tab
   • Look for "BIM Quantifier" tab in the ribbon
   • It should appear on the right side of the ribbon
3. Launch the Plugin
   • Click the "BIM Quantifier Pro" button (large icon)
   • The activation dialog will appear on first run

STEP 4: LICENSE ACTIVATION

ACTIVATION PROCESS:

◈ For Free Version:

1. Select "Continue with Free Version"
2. You can use up to 50 elements
3. Some features will be limited

◈ For Paid Version:

1. Copy your Hardware ID (shown in activation dialog)
2. Send it to: mj.qahremani@gmail.com
3. Include in your email:
• Your full name
• Company name (if applicable)
• Purchased package (Starter/Team/Enterprise)
4. Receive your license key (within 24 hours)
5. Enter the license key in activation dialog
6. Click "Activate License"
7. Fill in your name and company (optional)
8. Click "Activate"
◈ Success!
• Plugin is now activated
• Main window will open
• Start using BIM Quantifier Pro!

STEP 5: BASIC USAGE

FIRST PROJECT:

1. Open a Revit Model
• Open any project with walls, floors, roofs, doors, or windows
2. Launch the Plugin
• Click "BIM Quantifier Pro" in the ribbon
• Plugin will automatically extract quantities
3. Explore the Interface
• Tab: Walls - View all walls and their properties
• Tab: Floors - View all floors
• Tab: Roofs - View all roofs
• Tab: Doors - View all doors
• Tab: Windows - View all windows
4. Use Filters
• Filter by Level
• Filter by Element Type
• Search by keyword
5. Set Prices (Optional)
• Click "💰 Price Editor" button
• Set unit prices for each element type
• Set waste factors
• Click "Save"
6. View Dashboard
• Click "📊 Dashboard" button
• See cost distribution charts
• Compare element costs
7. Export Reports
• Click "📄 Export PDF" for professional reports
• Click "📊 Export CSV" for Excel/accounting
• Click "📋 Copy to Clipboard" for quick paste

TROUBLESHOOTING

PROBLEM: "BIM Quantifier" tab not appearing
Solution:
1. Make sure Revit is completely closed
2. Check if installation completed successfully
3. Run the installer again as administrator
4. Check Revit add-in manager (Add-Ins tab → External Tools)
PROBLEM: Plugin crashes on launch
Solution:
1. Check Windows Event Viewer for error details
2. Send error log: %APPDATA%\BIMQuantifierPro\error_log.txt
3. Contact support at mj.qahremani@gmail.com
PROBLEM: "Invalid license key" error
Solution:
1. Verify Hardware ID matches your system
2. Check license key format (no extra spaces)
3. Ensure license hasn't expired
4. Contact support if issue persists
PROBLEM: Some elements show zero dimensions
Solution:
1. Plugin uses smart parameter detection
2. It tries multiple parameter names
3. Falls back to BoundingBox calculation
4. If issue persists, contact support with element ID
PROBLEM: Plugin slow on large models
Solution:
1. Use filters to reduce element count
2. Work with smaller model sections
3. Export data in batches

UNINSTALLATION

HOW TO UNINSTALL:

1. ☐ Close all Revit instances
2. ☐ Open Control Panel
   • Go to "Programs and Features"
   • Find "BIM Quantifier Pro"
3. ☐ Uninstall
   • Click "Uninstall"
   • Follow the uninstallation wizard
   • Wait for completion
4. ☐ Cleanup (Optional)
   • Delete: C:\ProgramData\BIMQuantifierPro
   • Delete: %APPDATA%\BIMQuantifierPro

UPDATING

HOW TO UPDATE:

1. ☐ Download new installer
2. ☐ Run as administrator
3. ☐ Installer will automatically update existing installation

4. ☐ No need to uninstall previous version
5. ☐ License remains valid (if within validity period)

SUPPORT

GETTING HELP:

✉ Email: mj.qahremani@gmail.com
💼 LinkedIn: linkedin.com/in/mohamad-qahremani-0a581b3b2

Support Hours:

- Saturday - Wednesday: 9 AM - 6 PM
- Thursday: 9 AM - 1 PM
- Friday: Closed

Response Time: Within 24 hours

WHEN CONTACTING SUPPORT, PLEASE PROVIDE:

- Your Revit version
- Windows version
- Screenshot of the issue
- Error log file (if applicable)
- Hardware ID

THANK YOU

Thank you for choosing BIM Quantifier Pro!
We're committed to helping you work smarter, not harder.
Happy quantifying! 🚀
